The Department of Oral and Maxillofacial Surgery/Hospital Dentistry at the University of Michigan School of Dentistry invites qualified applicants and nominations for a clinical-track position at the clinical assistant/clinical associate professor level in Hospital Dentistry.

We seek an individual with strong commitment to dental education, scholarship and service. Candidates should have a D.D.S. or equivalent degree and the ability to be licensed in the State of Michigan. A State of Michigan limited academic dental license may be available for qualified candidates. Advanced training in a hospital setting is preferred, which may include dental oncology, oral medicine, special care and/or geriatric dentistry. The Department seeks individuals with demonstrated excellence in both clinical and didactic teaching, a commitment to service, and evidence of scholarly activity. Experience providing direct patient care in a hospital-based environment or similar clinical setting is required.

Responsibilities will include didactic and clinical instruction of dental students, dental hygiene students and graduate students/general practice residents, as well as scholarly activity and service. Service activities include but are not limited to providing general dental care. The department has an active mentorship program and will provide opportunities for clinical practice and the development of independent and/or collaborative research programs. Salary and level of academic appointment will be commensurate with qualifications and experience.

Applicants should submit curriculum vitae, statement of interests and goals, and names of three references via the secure website: http://facultyrecruiting.dent.umich.edu.

Questions for the search committee should be directed to Katrice Yarrington at kyarring@umich.edu. Applications will be accepted and evaluated on an on-going basis until the position is filled.

The University of Michigan is an EEO/AA employer.
